the hospital at the Stone house, where she
will live, writes that their place is a
favorite spot for game. She has seen from
her window a bear and oak deer, and
the bears were eating dried
blueberries, but as sheep were pastured
not far away, something besides berries
must have been in the woods.

The family expect to move from
Norway to Waterford when the
house is ready to occupy. Mrs. Melan-
son will be in charge of the house, she
writes, "We miss it and want the village
news."

DIFFERENCE OF OPINION
Editor Harvey of the Port Portland Re-
view, expresses our idea on the coming
primary referendum and we give it place.
He says:
Many good people have got the
idea that there is something sacred about
the primary law—that it thoroughly
safeguards the public against "boss
rule," etc., and that any attempt to
tempt to throw out the primary law
is an attempt by the wicked bosses to
hamper and kill the liberties of the
people. Such a notion is a very natu-
ral and correct one, but it is not the
entire truth. The primary law is not only
an attempt by the wicked bosses to
hamper and kill the liberties of the
people, but it is also an attempt by the
wicked bosses to hamper and kill the
liberties of the people.

wish it were possible to print and distribute them. But I will give a few extracts from the letters I have written. "I do not drink tea and coffee, smoke cigarettes, and eat rich cakes and candy, we are slowly building a 'House of Woe' for our bodies are like houses that are built on sand. A strong house is built of good habits and good food." Another one says, "I have learned that 'Which House Will You Live In?' 'The House of Woe' being built by eating things not good for us, it is a weak house and will fall in ruin at the first sign of disease. Avoid the error of 'Way I Rather Build a 'House of Health.' I would rather build a house of health strong enough to work, play and resist disease just as a real house

Improved Uniform International Sunday School Lesson

REV. P. B. WATKINS, D.D., Dean
of the Bible School, Boston, Mass.
(Copyright by Western Newspaper Union.)

Lesson for October 9

ELIJAH HEARS GOD'S VOICE

LESSON TEXT—1 Kings 19.
GOLDEN TEXT—Wait on the Lord, He will give courage, and He will strengthen thine heart.
PRIMARY TOPIC—Elijah Hears God's Voice.
JUNIOR TOPIC—God Encourages Elijah.
INTERMEDIATE AND SENIOR TOPIC—Listening to God's Voice.
YOUNG PEOPLE AND ADULT TOPIC—How God Speaks to Men.

1. Elijah's Flight (vv. 1-14).
Upon Ahab's return from the excitement on Mount Carmel, he told his wife all that Elijah had done, that even all her prophets had been slain to pieces by the sword. This was a message of death to Elijah, who seems to have been awaiting the gate (vv. 1, 2). Though Elijah had courageously stood before the king and the priests of Baal, he now covered before this woman, and fled for his life. Let us beware lest when we think we stand, we fall (1 Cor. 10:12).

2. Elijah under the juniper tree (vv. 3-7). The juniper tree was a shrub of the desert which afforded shelter and protection to travelers from the burning sun by day and the cold wind by night.

(1) His request (v. 4): This was that he might die. This was no doubt a foolish thing for him to say, but he was as despondent toward him as was God. The discouragement, and even despondency, of Elijah, was due to the nervous strain of about four years of unusual service for God, which culminated on Mount Carmel. Such nervous reaction is to be expected, and surely the heart of this lesson will be missed unless we see it in that light, and see God's tenderness toward his overworked servant.

(2) God's tender treatment (vv. 5-7). He gave him sleep (v. 5). "He gave him his beloved sleep" (Ps. 127:2). He sent an angel to cook Elijah's meal (vv. 6, 7). The angel of the Lord is usually understood to be the second member of the Holy Trinity. If this be correct, then we see Jehovah-Jesus preparing food for His servant Elijah, as He afterward did for His discouraged disciples by Galilee.

2. Elijah at Horeb (vv. 8-14). God had kindly ministered to His discouraged prophet so that he would be in a fit condition to receive the needed instruction and correction.

(1) God's interview with Elijah in the cave (vv. 8, 10). God's question, "What doest thou here, Elijah?" (v. 9). This was a stinging rebuke, though most kindly given. It implied that his appointed messenger was now far away from the field of duty. How blessed to know that "A God-forsaking saint is not a God-forsaking saint!" (1) Elijah's answer (v. 10). Elijah tried to vindicate himself by asserting his jealous loyalty to God—that in spite of all this the people had not only rejected his message and dishonored God, but sought to destroy him.

(2) God's interview with Elijah on the mount (vv. 11-14). While standing before the Lord on the mount, God caused a mighty demonstration of wind, earthquake and fire to pass before him, to show unto him the nature of the work he had been doing for God, and to show him what was lacking in his work for the fullest attainment of success. Elijah had about him much of the whirlwind, earthquake and fire. His work had been terrifying and alarming, but it lacked in gentleness and love. This object lesson to the days of God's working is a needed message for this age, which is so wonderfully characterized by noise and clamor. The world is not "taken for Christ" by the fleshly energy and enthusiasms of conventions and committees, but by the quiet hearts who go forth proclaiming God's Word in the energy of the Holy Spirit.

11. Elijah's Return (vv. 15-18).
Though Elijah had erred, God brought him again into His service. How comforting to know that God does not reject His servants because of their failures in times of despondency! He deals with them after the measure of their hearts. Elijah was "nourished and instructed by the Lord" and then sent on a high mission. God took Elijah out of himself by giving him a new commission. Before God would come in His chariot to take Elijah home, he sent him upon a threefold ministry.

1. To anoint Hazael king over Syria (v. 15).
2. To anoint Jehu king over Israel (v. 16).
3. To anoint Elisha as his own successor in the prophet's office (vv. 19-21).

Look Up to God

Dare to look up to God and say: "I am the same mind as Thou art; I am Thine; I refuse nothing that pleases Thee; lead me where Thou wilt; clothe me in any dress Thou chooseth.—Eph. 1:1.

Woodman Charles

Woodman Charles of Harrison, son of the late Simon and Rebecca Charles of North Fryeburg, passed away in a Portland hospital, Sept. 28. He was born November 10, 1854. His early life was passed in North Fryeburg where he engaged in farming. In the last few years he had been in the real estate business in Bridgton and Harrison, making his home in Harrison.

For the past year he has been in failing health. He and Mrs. Charles have passed the last few months of his life in a comfortable and pleasant home in Portland, seeking medical aid for him. Every means of help was tried and finally he submitted to a surgical operation from which he had not sufficient strength to rally.

Mr. Charles was thoroughly beloved by all who knew him and always held the kindest thoughts for everyone. He was the soul of integrity, honest and square in all his dealings. A wonderful neighbor and friend. He was extremely generous, always extending a helping hand to those in need. He was especially loved by the school children near his home, as he was attested by a post card shower which they had prepared to send him when they heard of his death and by the beautiful wreath which was sent to the funeral.

In religion he was a Universalist. He was a member of Bridgton Masonic Lodge and the O. E. S. and also of Harrison Grange.

SUMMER

Lovell Chandler Has Fine Potato Crop—Nomad's Stories Liked.

Friday, Sept. 30th, five of the boys from the Oxford Mill called upon Ernest Lovell, who had just returned from his trip to the north, where he had been to where they could find some potatoes that were for sale and he jumped into their big car and led the way to Lovell Chandler's place, and took about potatoes and the cry that all potatoes are rotting bad, well when we got there, Lovell and four men were digging potatoes and there were thirty or forty bushel upon the ground. Lovell took us to the barn where there were two hundred or more bushel, and from there to the house cellar, where he had put into bins for winter storage four hundred bushels of potatoes, and had delivered two hundred bushels to the Stanley's store at Dixfield.

Joseph Bosse moved his family back to the green wood camp on the Penley lot, Friday, the 30th, where he is to spend the winter with his crew of woodmen, getting out pulp and birch.

Chris Bartlett went to Buckfield, Saturday, October 1st, to work at Hotel Long.

It is very interesting to read No. 5's articles in the Advertiser, being so much different from the hikes done by 95% of those people touring the country as you will see that nearly all of his travels are back in the remote sections and far away from city life and harm, and where the green grass grows clear to the wheel track of the wagon, not the motor car; we note what he has to say about these road side scenes of the back and cross roads, when approached by city folks with the usual "good morning" and getting in return, a pleasant smile or a twinkle of the eye, but very seldom with a sharp reply of "how do you do sir," though he spoke of what a warm heart they all carried and nearly all of them seemed to be enjoying the best of health and were happy contented. We also read of the abandoned farm situation. Let us hope Nomad continues handling these articles to the Advertiser throughout but long cold winter for three or four of these articles are well worth the subscription price of the paper.

We also read of Mr. Torrey's promotion through the Advertiser columns. Mr. Torrey has many sympathizers through this section.

Why We Should Vote "No" at the Special Election

By R. L. Cummings of West Paris

Why we should vote "No" on October 18th.

It is the way of progress and not the way of reaction.

We are told by political guides that our forefathers did great things, and that they instituted the caucus and convention system. True, that was a step forward at that time. They accomplished great things because the progressive element prevailed. Then the politicians (the man with an axe to grind) found a place to hold a caucus at some obscure place with only a few friends and a few dollars, and they have been stilled as "Malefactors of great wealth" to remove anything that stands in their way in their efforts to control nominations and elections, and in fact to control this country by their dollars, that they may make more dollars.

When stripped down to the plain facts, this attempt to repeal the direct primary is but one of the moves of the men that have been stilled as "Malefactors of great wealth" to remove anything that stands in their way in their efforts to control nominations and elections, and in fact to control this country by their dollars, that they may make more dollars.

These in brief are some of the reasons (poorly expressed) why plain people like myself, who are not political aspirants, but who emphatically believe that it is necessary for us to govern ourselves, will vote "No" on the attempt to repeal our direct primary on October 18th.

The people caused certain safeguards to be placed around the caucus. When these proved no secure defense against the bounding politician, they decided to

take into their own hands the nominating of candidates for office. That is the direct primary. They also disbelieved in the unlimited use of money to control the purchase either directly or indirectly either nomination for office or election to office nomination. Thus it came about that restrictions of the unlimited use of money, and publicity of the amounts used became a matter that could be known by the people. This has become very annoying to the politicians and the men of our great corporations that furnish such lavish amounts to carry elections. Hence this great effort to repeal the direct primary.

This has become very annoying to the politicians and the men of our great corporations that furnish such lavish amounts to carry elections. Hence this great effort to repeal the direct primary.

When stripped down to the plain facts, this attempt to repeal the direct primary is but one of the moves of the men that have been stilled as "Malefactors of great wealth" to remove anything that stands in their way in their efforts to control nominations and elections, and in fact to control this country by their dollars, that they may make more dollars.

These in brief are some of the reasons (poorly expressed) why plain people like myself, who are not political aspirants, but who emphatically believe that it is necessary for us to govern ourselves, will vote "No" on the attempt to repeal our direct primary on October 18th.

The people caused certain safeguards to be placed around the caucus. When these proved no secure defense against the bounding politician, they decided to

take into their own hands the nominating of candidates for office. That is the direct primary. They also disbelieved in the unlimited use of money to control the purchase either directly or indirectly either nomination for office or election to office nomination. Thus it came about that restrictions of the unlimited use of money, and publicity of the amounts used became a matter that could be known by the people. This has become very annoying to the politicians and the men of our great corporations that furnish such lavish amounts to carry elections. Hence this great effort to repeal the direct primary.

Why We Should Vote "No" at the Special Election

By R. L. Cummings of West Paris

Why we should vote "No" on October 18th.

It is the way of progress and not the way of reaction.

We are told by political guides that our forefathers did great things, and that they instituted the caucus and convention system. True, that was a step forward at that time. They accomplished great things because the progressive element prevailed. Then the politicians (the man with an axe to grind) found a place to hold a caucus at some obscure place with only a few friends and a few dollars, and they have been stilled as "Malefactors of great wealth" to remove anything that stands in their way in their efforts to control nominations and elections, and in fact to control this country by their dollars, that they may make more dollars.
